

Information

Notes

SpiroZone has a valve controlled by-pass for greater efficiency. This ensures complete separation of the hot flow and cooler return water within the manifold. Because of this, a standard spring loaded Non-return valve is required on each circuit connected to a SpiroZone.

This schematic shows the key components in the mechanical system and the list of materials shown is non-exhaustive. All systems should be installed in accordance with building regulations and by a qualified installer. The schematic is a representation of a heating system and Systemlink will not be held responsible for any errors shown.

This is a Joule Energy Graphic. Do not reproduce. For example purposes only.

LEGEND

	Motorised Valve		Motorised Valve
	Isolating Valve		Automatic Air Valve
	Safety Valve		Pressure Gauge
	Non Return Valve		Temperature Gauge
	Pressure Relief Valve		Temperature Sensor
	Oil Fire Slam Valve		Terminator
	Temperature Relief Valve		Strainer
	Pressure Regulating Valve		DW Pressurisation Pump
	Flow Regulating Valve		Drain Cock
	Pressure Reducing Valve		Circulating Pump
	Gas Slam Valve		Binder Test Point
	Hi-Pressure Switch		Direction Arrow
	Low Pressure Switch
